LISTENING TO CALIFORNIA'S 3RD DISTRICT

Dear Friend,

Illegal Immigration is one of the most pressing issues facing our nation today. Article 1, Section 8 of the Constitution gives Congress the responsibility of retaining control of our borders.

For over two decades I have remained dedicated to solving the myriad problems created by the threat to our borders. Recently, I joined Congressmen Peter King and Lamar Smith in cosponsoring the Secure Borders First Act (H.R. 2954), a bill that would place securing our nation's borders as the immediate priority of national immigration policy.

However, a very different agenda was reflected in early August when the Majority party in the House overturned a requirement, originally passed in the last Congress, that individuals to prove their citizenship before receiving Medicaid benefits. This would potentially open up benefit payments to illegal aliens.

That same week, a measure was introduced to prohibit taxpayer funds from the agriculture appropriations bill from being used to employ, or provide housing assistance to, illegal aliens. But the Majority used strong arm tactics in a late night session to defeat the measure. This again raises the prospect that those who have broken our laws may become the beneficiaries of federal largess.

The Majority in Congress has demonstrated its conviction that illegal aliens should not be categorically disqualified from receiving government benefits.
